A Letter to the Class of 2022

CHANDRASHEKHAR KHARE
Ph.D. Caltech

Research Interests: Galois Representations

Congratulations, Class of 2022! Take a moment and savor the hard work you put into making it through one of the most challenging math programs in the country. It is a privilege to be a part of a department with some of the most talented and brilliant students UCLA has seen.

The UCLA Mathematics Department is currently ranked 11th worldwide. This was made possible with the academic excellence and the research achievement of our faculty and students. Take a moment to acknowledge that. You are graduating from one of the top math programs worldwide. Every theorem you learned and every equation you solved was worth it in the end. We hope you are proud of yourself.

Graduation isn't the end of the journey. It is the beginning of a new chapter.

The possibilities are never-ending when it comes to math. No matter what road you decide to take, we know each and every one will go above and beyond. Equipped with your mathematical skills and perseverance, you will make lasting impacts where ever you go.

Take your time celebrating, then get ready to take on the world!

Congratulations once again, Class of 2022!
